A HISTORY OF SPREADING JOY

As one of the nation's most popular spreadable cheese brands, we bring decades of dedication to each of our cheese varieties. Over 100 years ago, the original “club cheese” in a crock was perfected using a cold pack method of cheese production and a ceramic crock as the distinctive container. In the beginning, this cheese was served in hotels and clubs in the area and therefore acquired the nickname “club cheese.” Only the highest-quality aged cheddar goes into our products to create authentic eating experiences. The velvety texture and mild cheddar flavor can stand out or blend in—creating flavorful flexibility and endless versatility across your whole menu.
