FAST-PACED ACTIVITIES

Three activities designed to provide an interactive way for students to get an overview of how food insecurity affects a community. Each activity is quick and easy to complete and provides a foundational knowledge that will begin the path to understanding food insecurity. Each activity addresses one critical factor in the challenge to be food secure.

FIGHT HUNGER ROADMAP

Students will be divided into two teams and race to create an access road using cards. Students will discuss how different resources can make it easier and/or more difficult for people to access food.

**Purpose:** To identify how resources impact access to food.

**Pre-assessment Questions:**
- What is food security?
- What are resources?
- What are some resources that impact food security?

**Discussion Questions:**
- Did you make the connection from Food to People?
- Which cards did you use to make the connection?
- Were some of the cards harder to use than others?
