

Questioning Form

Lesson 1: Driving Question Activity

Name: _____

After observing the phenomenon cards, write 3 scientific questions that come to your mind in the chart below. Do not judge your questions or write possible answers- only write the questions.

1.
2.
3.

Group Questions

Join your group, share your questions and write down everyone's questions in the chart below including your own. Discuss with your group and decide if each question is considered to be Closed (yes/no) questions or Open-ended questions by putting a C or O in the chart.

Question	Open or Closed
